Mail Order Presents ORC & GOBLIN LEGENDS CATALOGUE

This handy reference catalogue contains all of the Orc and Goblin models currently available in the Citadel Miniatures range.

CITADEL LEGENDS

We've also included some of our favourite classic Orc and Goblin miniatures which are no longer available in the shops.

This Orc and Goblin Legends Catalogue is designed to make it easier for you to find exactly what you're looking for: whether it's a Snotling or a Stone Troll, a Wolf Rider or a Wyvern, everything you need for your Orc and Goblin army is right here. Complete with a guide to using Mail Order, gathering your forces has never been easier.

THE ORC AND GOBLIN ARMY

The barbaric green skinned Orcs and Goblins are fierce and brutal warriors who pour down from their mountain dwellings to wreak havoc against mankind.

The Orc and Goblin army is a savage horde consisting of a wide range of frightening monsters and destructive war machines such as bloodthirsty Trolls and suicidal Goblin Doom Divers. They might not be the most clever lot on the battlefield but their aggression and strength of numbers easily make up for it.

The typical Orc and Goblin tactic is to charge into battle whilst shouting "Waaagh!" at the top of their voices, overwhelming the foe with sheer ferocity and weight of numbers. It is a tactic that works surprisingly well and enemies who escape the mad onslaught unharmed can consider themselves very lucky indeed.
