Specialist Games

Welcome to Games Workshop's 2009 Specialist Games Catalogue

Welcome to the Specialist Games catalogue. If you've collected an army for Warhammer, Warhammer 40,000 or The Lord of The Rings Strategy Battle Game, and you now fancy trying something a bit different within the Games Workshop hobby, then the Specialist Games range is for you.

Over the years Games Workshop has brought out so many games and miniatures that it is impossible for us to carry the full range in all of our stores. This catalogue is home to a selection of these games – collectively known as the Specialist Games range – which can provide experienced players with exciting new ways of exploring the Games Workshop hobby.

At present the Specialist Games range includes the following games: Blood Bowl, Warmaster, Epic 40,000, Battlefleet Gothic, Mordheim, Necromunda and The Battle of Five Armies.

Each game has an original background setting based within the worlds and universe of Warhammer, Warhammer 40,000 and the Hobbit. From leading a vicious gang in the dilapidated Underhives of

Necromunda, marshalling tens of thousands of troops over the great battlefields of the Old World, commanding two-mile long cathedral battleships, coaching an all-star sports team, or going undercover deep in the lair of a Chaos cult the possibilities are endless.

Each game in the Specialist Games range has also been designed to highlight a certain facet of the hobby – you may want to collect and paint miniatures that are in a different scale, or wish to develop a gang or team in a league or campaign environment; you may wish to role-play or tell stories through your games; or play games whose rules provide different tactical and strategic challenges; or you may just want to push spaceships about on the table top!

This catalogue is designed to be a vital resource for the Specialist Games range. Each game has its own section that contains an overview of the game and details of the miniatures that are available to play it. You can order the miniatures from the online store on our website, or you can ask the staff in your local Games Workshop store to order them for you.

Last, but very far from least, you can find the rules for many of the games in the Specialist Range on our website as a free (yes, free!) downloadable rulebook, along with a large database of articles and player-aids as well. In short, you can find everything you need to play any of the games in the Specialist range on these pages and on the Games Workshop website.

About the Models

Most of the models in this catalogue are shown painted. All models are supplied unpainted. All miniatures are shown at actual size, unless otherwise noted. All models that require a base are supplied with the correct plastic Citadel miniature slottabase.

The models shown in this catalogue are shown assembled. This is not how they are supplied. All models will require some assembly. Most models require nothing more complicated than affixing the miniature to its plastic base.
