I have a question about my order. What should I do?

If you have any questions, the easiest and fastest way of getting them answered is to telephone one of our friendly and knowledgeable staff. If this is just not possible then you can email us but it may not be possible for us to reply as quickly as we would like so we do recommend calling us.

If calling about an order, please have either the delivery note from the order or your receipt from the online store so we can take the relevant details we need and get to work helping you.

Can I buy Forge World models anywhere else?

Yes. Forge World products can also be purchased from any of the events that we attend. For an up to date list of events we will be attending over the next few months please visit the Events section of the Forge World website.

We usually use these shows as an opportunity to release brand new models and show off work in progress. They are also your chance to ask any questions you have face to face with the Forge World staff.

As we often cannot take our entire range with us to every show, to guarantee getting the models you want at these events we recommend sending a reservation order to us. All we need is your name, which show or event you want to collect your order at and of course, your list of models. We will then pack up your order, take it with us and it will be there waiting for you at the show.

Terms and Conditions

To save room for more new models, we have decided not to print Forge World's Terms and Conditions in our catalogue. Of course, these are available upon request by calling us on 0115 900 4995 or online at <http://www.forgeworld.co.uk/Home/Help.html> These terms and conditions apply to every contact between you and Games Workshop Limited (trading as Forge World) so we recommend that you read them carefully before purchasing anything.

Forge World reserve the right to change any prices, availability and content of any products at any time and without notice.

Where have some of our models gone?

Our range of models has become so large that we can no longer fit them all into our catalogue. Many of these models, such as those shown above can still be found on our website.

You will notice that some of our model kits featured in the catalogue have a stylised eye logo next them. This indicates that the model is appropriate for the timeline featured in our **Horus Heresy: Betrayal** book.

□ ELSPETH VON DRAKEN ON CARMINE DRAGON

(Product Code: 99590202010)

The 'Graveyard Rose' Elspeth von Draken, Magisterix of the Amethyst College and arch-wizard of the Lore of Death. Von Draken is born of a long bloodline touched by the Winds of Magic, a bloodline that has produced both heroes and monsters in its time, and the Dark Lady of Nuln is undoubtedly one of the most powerful Amethyst wizards of the age.

Appearing as a spectre of death, gowned in robes so black as to be woven from shadow and bearing a keening scythe, forged with Dark magic, Magisterix von Draken has long been a hidden defender of the Empire, and her life and acts in its defence are shrouded in both secrecy and suspicion.

The model depicts Elspeth von Draken riding a Carmine Dragon side saddle, etched with detailed iconography of the Amethyst College, and surrounded by alchemical familiar-cherubs.

Model designed by Edgar Skomorowski and Trish Carden. Resin kit.

Price: £70.00 (€91.00, US\$116.00)

□ EMPIRE MARIENBURG CLASS LANDSHIP

(Product Code: 99590202005)

This towering behemoth is named after, commissioned by, and paid for by the vast coffers of the wealthy burghers of the independent city-state of Marienburg, notorious for having bought its secession from the Empire.

The mighty Land Ship is an insane sight upon the field of battle. It is a mobile fortress of oak and iron that crushes enemy troops beneath its wheels and discharges volleys of deadly shot from its deck guns and light cannon. Mighty, that is, if the somewhat experimental boiler doesn't catch fire, explode, or cause the wheels to fall off!

This massive, superbly detailed, Resin kit, designed by Tim Adcock, is supplied with six resin crew figures sculpted by Steve Whitehead: three Deck Gunners, a Captain, an Engineer-Steersman and a Lookout. Resin kit.

Price: £115.00 (€150.00, US\$190.00)

Resin kit containing this mighty champion both mounted on his fell Demigrph and on foot. Four different head options are included: two different variations of both a helmeted and bare head, providing a wealth of modelling options.

Models designed by Kev White.

Price: £36.00 (€47.00, US\$59.00)

Renowned across the Old World for his bloodthirsty and treacherous exploits, Lietpold is a vain, arrogant, vicious, paranoid and cruel despot; as bloody a tyrant as any in the Border Princes.

SKAVEN EXALTED VERMIN LORD

(Product Code: 99590206001)

Few creatures in the Warhammer world are as horrific and unnatural as the so-called Vermin Lords. At once majestic and nauseating, these incarnate icons of the Horned Rat are both worshipped and feared in equal measure by the Skaven, for they are wiser and more wicked than any living Grey Seer.

The Exalted Vermin Lord crouches atop a ruined pillar etched with the scratch-script of the Underfolk, with chunks of warpstone and the runes of its summoning embedded into its loathsome, squamous hide. Resin kit, model designed by Mark Bedford. Empire figure shown for scale purposes only.

Price: £45.00 (€59.00, US\$74.00)

SKAVEN BROOD HORROR

(Product Code: 99590206002)

When the beastmasters of Clan Moulder spawn a pack of Giant Pox Rats, there is occasionally one among them who will brutally devour the rest of the brood, growing fat and bloated in both strength and savagery, the twisted forms of its kin still visible as they writhe and claw at their fleshy prison.

Resin kit, Model designed by Trish Carden and Steve Whitehead

Price: £32.00 (€42.00, US\$53.00)

SKAVEN BROOD HORROR WITH WARLORD

(Product Code: 99590206003)

The so-called Skaven Brood Horrors are prized by the Master-Moulders, traded to the wealthier Skaven Clans for many thousands of warp-tokens for use as a war-mount by especially powerful, or ostentatious, Skaven warlords, or goaded into battle to flail and crush the foe beneath its clawed limbs and to bite and savage with its razored teeth. Resin kit, model designed by Trish Carden and Steve Whitehead

Price: £42.00 (€55.00, US\$69.00)

SKAVEN WOLF RATS

(Product Code: 99590206004)

Neither wholly rat or wholly wolf, but an aberrant and savage amalgamation of the two, Skaven Wolf Rats are kept by the rat-men for a myriad of uses: for guarding their lairs, as hunting beasts, and occasionally even as food. In battle packs these hellish creatures will be unleashed ahead of Skaven troops, for unlike the cowardly rat-men the Wolf Rats are fearless shock troops, eager to feast upon the flesh of those who face their ferocious assault.

Resin kit.
