Upgrading to Express Delivery costs an additional £12 within the UK and £18 for the rest of the world, but is a lot faster. Please note that as the Forge World offices and warehouse are closed on Sundays, orders placed on Saturday evening and Sunday will be processed from the next working day.

The delivery date of orders is dependant on stock availability. Choosing the Express Delivery option will ensure the earliest possible delivery date. If your order is time sensitive or you wish to check the availability of a particular item, we recommend you call our Customer Service team.

As a rule, please allow 28 days from date of ordering for delivery. If you think your order should have been delivered already, please contact your local post office and check it is not being held there as our packages are often too big for your letterbox!

I have a question about my order. What should I do?

If you have any questions, the easiest and fastest way of getting them answered is to phone one of our friendly and knowledgeable staff. If this is just not possible then you can email us, but it may not be possible for us to reply as quickly as we would like so we do recommend calling us.

If calling about an order, please have either the delivery note from the order or your receipt from the online store so we can take the relevant details we need and get to work helping you.

Can I buy Forge World models anywhere else?

Yes. Forge World products can also be purchased from any of the events that we attend. For an up to date list of events we will be attending over the next few months, please visit the Events section of the Forge World website.

We usually use these shows as an opportunity to release brand new models and show off work in progress. They are also your chance to ask any questions you have face-to-face with the Forge World staff.

As we often cannot take our entire range with us to every show, to guarantee getting the models you want at these events we recommend sending a reservation order to us. All we need is your name, which show or event you want to collect your order at and, of course, your list of models. We will then pack up your order, take it with us and it will be there waiting for you at the show. If you are placing a reservation for a UK show, you will also need your card details to hand and we'll process the payment while you are on the phone.

Terms and Conditions

To save room for more new models, we have decided not to print Forge World's Terms and Conditions in our catalogue. Of course, these are available upon request by calling us on 0115 900 4995 or online at <http://www.forgeworld.co.uk/Home/Help.html>. These terms and conditions apply to every contact between you and Games Workshop Limited (trading as Forge World), so we recommend that you read them carefully before purchasing anything.

Forge World reserves the right to change any prices, availability and the content of any products at any time and without notice.

You will notice that some of our model kits featured in the catalogue have a stylised eye logo next to them. This indicates that the model is appropriate for the timeline featured in our Horus Heresy books.

THE EMPIRE

□ ELSPETH VON DRAKEN ON CARMINE DRAGON

(Product code: 99590202010)

The 'Graveyard Rose' Elspeth von Draken, Magisterix of the Amethyst College and arch-wizard of the Lore of Death. Von Draken is born of a long bloodline touched by the Winds of Magic, a bloodline that has produced both heroes and monsters in its time, and the Dark Lady of Nuln is undoubtedly one of the most powerful Amethyst wizards of the age.

Appearing as a spectre of death, gowned in robes so black as to be woven from shadow and bearing a keening scythe, forged with Dark magic, Magisterix von Draken has long been a hidden defender of the Empire, and her life and acts in its defence are shrouded in both secrecy and suspicion.

This model depicts Elspeth von Draken riding a Carmine Dragon side-saddle on a towering throne, etched with detailed iconography of the Amethyst College, and surrounded by alchemical familiar-cherubs. Model designed by Edgar Skomorowski and Trish Carden. Resin kit.

Resin kit containing this mighty champion both mounted on his fell Demiryph and on foot. Four different head options are included: two different variations of both a helmeted and bare head, providing a wealth of modelling options. Models designed by Kev White.

Renowned across the Old World for his bloodthirsty and treacherous exploits, Lietpold is a vain, arrogant, vicious, paranoid and cruel despot; as bloody a tyrant as any in the Border Princes.

The Exalted Vermin Lord crouches atop a ruined pillar etched with the scratch-script of the Underfolk, with chunks of warpstone and the runes of its summoning embedded into its loathsome, squamous hide. Resin kit. Model designed by Mark Bedford. Empire figure shown for scale purposes only.
