ADEPTUS TITANICUS

WARLORD-SINISTER PSI-TITAN

A weapon of hidden terror and secrecy, dark rumours speak of the Warlord-Sinister as a 'Psi-Titan', a macabre variant of the more conventional Warlord battle Titan. Bound through arcane technologies to enslaved alpha-grade psykers, the esoteric machinery of the Titan's Ciricrux Anima is capable of channelling the power of the Empyrean through the Sinistramanus Tenebrae, a weapon of nightmarishly destructive force which is able to shatter reality itself, dragging its victims into the Warp.

THIS IS NOT A TOY

Preparing the Model for Assembly

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims. For a more detailed guide to working with resin models, go to the Downloads section of the Forge World website.

This kit contains all the pieces required to construct a Warlord Sinister Psi-Titan. To glue the resin pieces together, use Citadel Super Glue.

NOTE: We have cast this kit using the most advanced techniques and the best quality resin, but due to the nature of the casting process, your model may contain small air bubbles. These can be filled with model filler or super glue. Any slight warpage of thin parts can easily be corrected by immersing the part in hot water for about 1 minute, then carefully bending it back into shape.
