ALPHA LEGION

LERNAEAN TERMINATORS

The Lernaean are clad in Cataphractii Tactical Dreadnought Armour and are armed with volkite chargers, making them fearsome close assault and vanguard spearhead units against which few enemies can stand. In battle they advance relentlessly against the foe, attacking with cold determination and slaying any enemy they have not driven to rout before them.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust mask or respirator when sanding or sawing resin parts.

| 8. | Left Shoulder Pad x5 | 16. | Left Arm 3 | | |

If you need to contact the Forge World Customer Service team regarding this model, you can get in touch via email - forgeworld@gwplc.com - or call:

0115 900 4995 within the UK

011 44 115 900 4995 from the USA and Canada

0011 44 115 900 4995 from Australia

00 44 115 900 4995 from Europe and the rest of the world.

Preparing a Model for Assembly

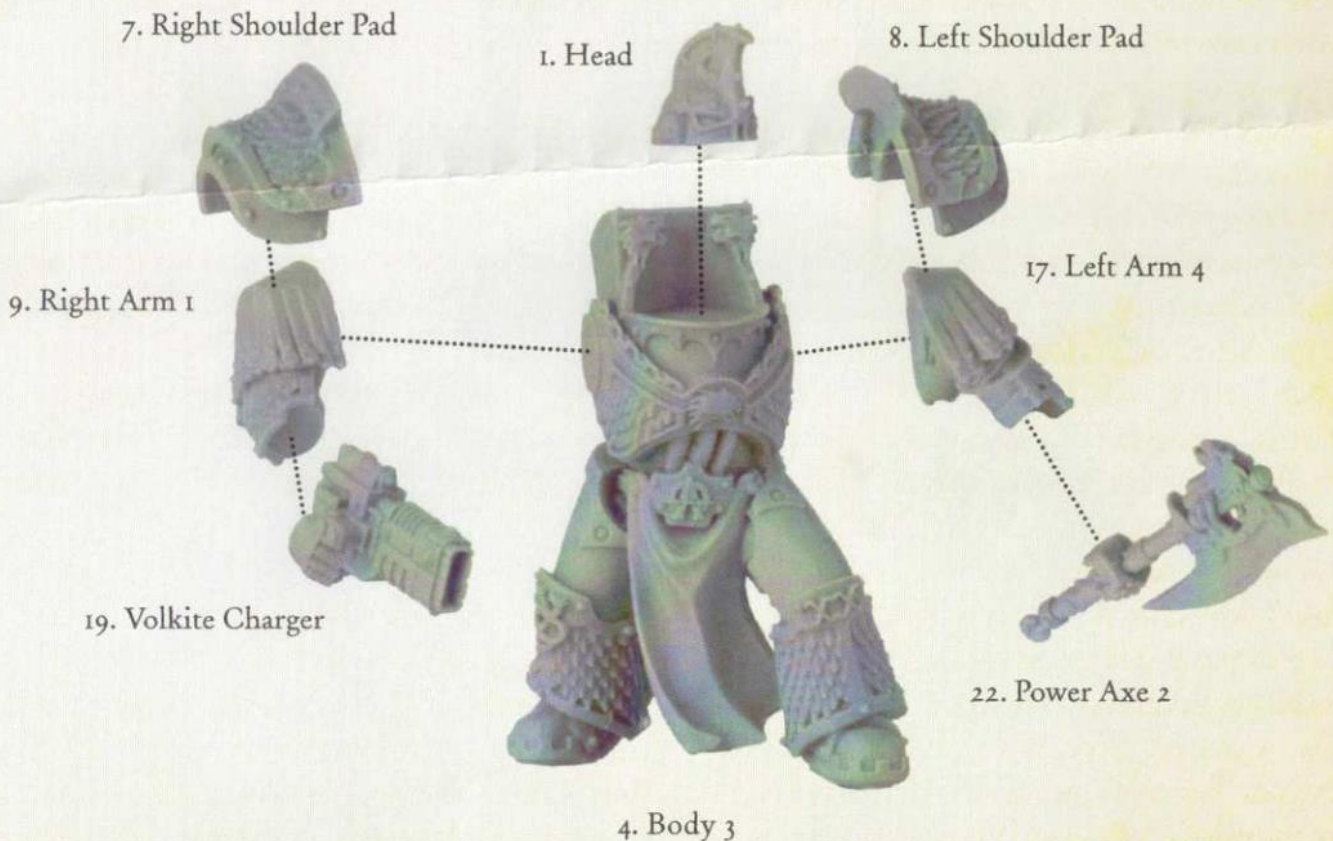

Before assembling a model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims.

For a more detailed guide to working with resin models, go to the Downloads section of the Forge World website.

This kit contains all of the pieces required to construct a unit of five Lernaean Terminators. To glue the resin pieces together, use Citadel Super Glue.

NOTE: We have cast this kit using advanced techniques and the best quality resin, but due to the nature of the casting process, your model may contain small air bubbles. These can be filled with model filler or super glue. Any slight warpage of thin parts can easily be corrected by immersing the part in hot tap water for about 1 minute, then carefully bending it back into shape.

Construction Example

Included in the set is an optional Conversion Beamer, which would replace both the Right Arm and Volkite Charger.
