This kit contains all the pieces required to make a complete Warhammer Bloodthirster
To glue the resin pieces together use Citadel Super Glue.

NOTE: We have cast this kit using the most advanced techniques and the best quality resin, but due to the nature of the casting process your model may contain very slight air bubbles. These can easily be filled with model filler or super glue. Any slight warpage of thin parts can easily be corrected by immersing the part in hot tap water for about 1 minute then carefully bending it back into shape.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust mask or respirator when sanding or sawing resin parts.

SPECIAL NOTE
 Due to complexities of casting large pieces in resin it will be necessary to file down certain components and fill gaps with putty to finish this model.

SPECIAL NOTE
 The Whip comes as 2 straight lengths which can be immersed in hot water until they can be bent to the desired shape. We also advise that the Whips are pinned into place and NOT glued. The whips can then be removed to assist transport.
