This kit contains all the pieces required to make a Necron Tomb Stalker
To glue the resin pieces either together use Citadel
Super Glue.

NOTE: We have cast this conversion kit using the most advanced techniques
and the best quality resin, but due to the nature of the casting process your
model may contain very slight air bubbles. These can easily be filled with
model filler or super glue. Any slight warpage of thin parts can easily be
corrected by immersing the part in hot tap water for about 1 minute then
carefully bending it back into shape.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust
mask or respirator when sanding or sawing resin parts.

* If you plan to pose the model over some interesting terrain feature a good idea is to tack it in place before you glue the body together. That way you can easily determine before hand which pose works best.

** You get 24 legs in 6 different poses as part of the kit. You will only need 20 for the finished model. This to help you to pose the model as you like.

Using a lump of sticky tack you can hold the body in place while you glue the legs on to the body.
