# HOW TO PAINT WARHAMMER

Painting miniatures is one of the most satisfying parts of the Warhammer hobby. You'll find your skills start to grow with practice, and soon you'll know plenty of painting techniques to bring your miniatures to life.

Make sure the lid of your chosen paint is firmly shut and give the pot a quick shake.

This should be done for all Citadel paints before you use them.

Using a clean brush, put a small amount of paint on the paint palette provided.

Using a palette will allow group members to easily share paint.

Before you dip your brush into the paint, wet the bristles first.

Citadel paints are designed to be watered down a little so paint will go onto the model more smoothly.

Paint your chosen colours onto the model.

Start with the colour that covers the biggest area first.

Let each colour dry before you move on to the next.

Don't forget to wash your brush thoroughly between each colour you use.

Getting the paint out of the bristles keeps your colours clean and preserves the brush.

After all of the areas are painted, finish the model by tidying up any sections as required.

It's OK to go back and neaten up areas that you think you can improve.

## FIND OUT MORE

The Citadel paint range has all the colours that you need, and the Citadel Colour app and website have all the information. There's advice on colours, painting guides, tips on special effects, and more.
