MARS-ALPHA PATTERN WARBRINGER

NEMESIS QUAKE CANNON

Mounted upon the Warbringer Nemesis Titan, the quake cannon can draw upon the Titan's vast reserves of power as necessity dictates, enabling it to fire at a far greater range than the weapons utilised by smaller patterns of Titan. The weapon's earth-shattering munitions can both tear apart an enemy Titan through a direct hit, or indirectly halt the advance of nearly anything on the battlefield, the monumental concussive force unleashed as its shell impacts the ground setting off powerful localised earthquakes.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust mask or respirator when sanding or sawing resin parts.

Components

Before assembly, check that none of the components are missing.

- | | |
|--------------------------|-----------------------------|
| 1. Platform | 21. Crane Claw Pivot x2 |
| 2. Right Cannon Bracket | 22. Quake Cannon |
| 3. Left Cannon Bracket | 23. Short Cable x2 |
| 4. Ballistic Cogitator | 24. Shell Retaining Claw x2 |
| 5. Recuperator | 25. Crane Claw x2 |
| 6. Right Magazine Motor | 26. Power Coupling x2 |
| 7. Left Magazine Motor | 27. Right Crane Mechanism |
| 8. Right Power Cable | 28. Left Crane Mechanism |
| 9. Left Power Cable | 29. Cylinder Mount |
| 10. Primary Power Cable | 30. Shell Fins x5 |
| 11. Right Magazine | 31. Shell Tips x5 |
| 12. Left Magazine | 32. Cylinder Support |
| 13. Right Shell Ramp | 33. Railing x4 |
| 14. Left Shell Ramp | 34. Quake Cannon Shell x2 |
| 15. Right Crane Arm | 35. Right Trunnion |
| 16. Left Crane Arm | 36. Left Trunnion |
| 17. Recuperator Rear | 37. Cylinder |
| 18. Right Magazine Mount | 38. Front Armour Plating |
| 19. Left Magazine Mount | 39. Quake Cannon Barrel |
| 20. Crane Mount x2 | 40. Stabilisers x2 |

Preparing the Model for Assembly

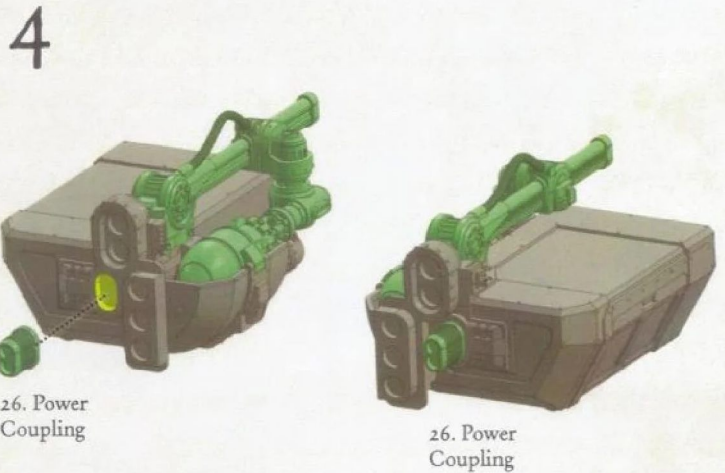

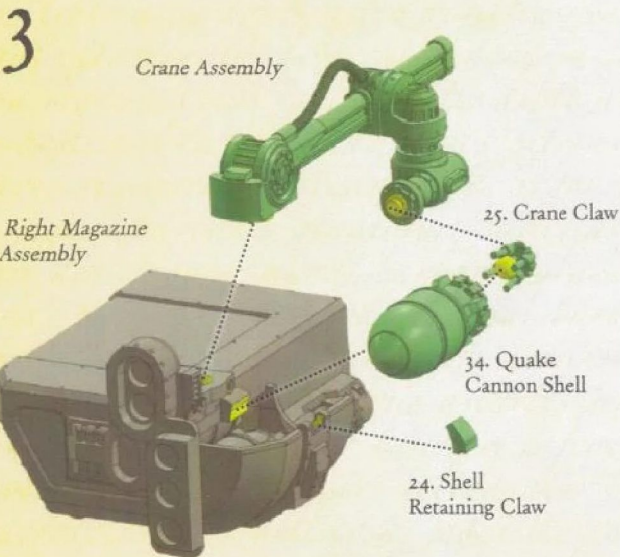

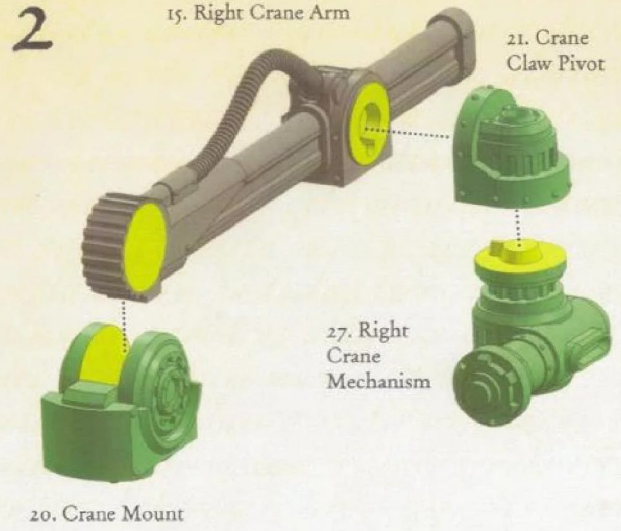

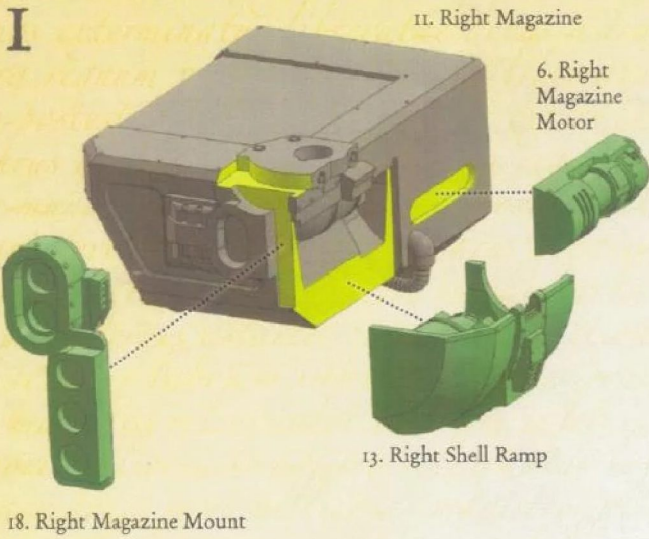

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims. For a more detailed guide to working with resin models, go to the Downloads section of the Forge World website.

This kit contains all the pieces required to construct the Mars-Alpha Pattern Warbringer Nemesis Quake Cannon. To glue the resin pieces together, use Citadel Super Glue.

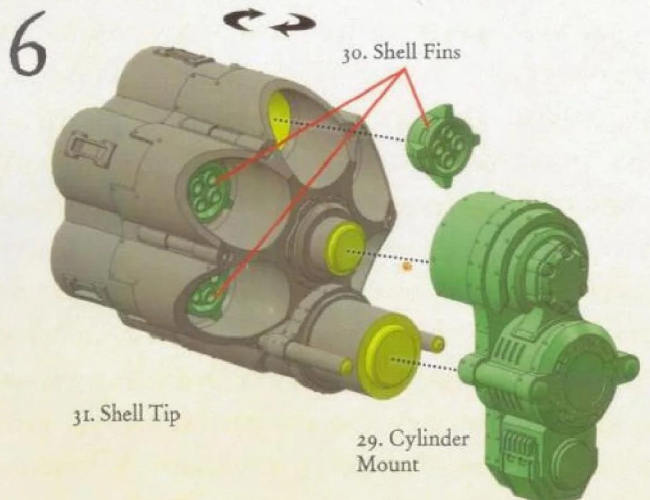

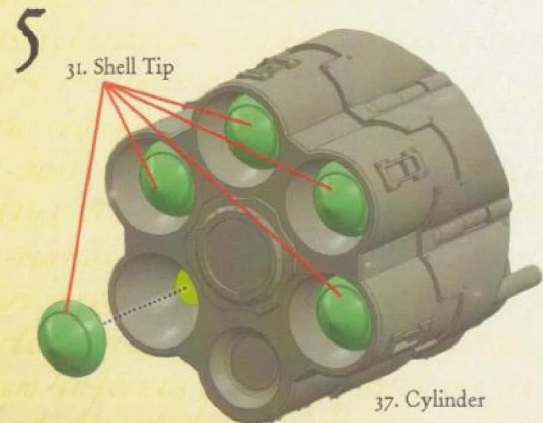

NOTE: We have cast this kit using advanced techniques and the best quality resin, but due to the nature of the casting process, your model may contain small air bubbles. These can easily be filled with model filler or super glue. Any slight warpage of thin parts can be corrected by immersing the part in hot water for about 1 minute, then bending it back into shape.

If you need to contact the Forge World Customer Service team regarding this model, you can get in touch via email – forgeworld@gwplc.com – or call:
0115 900 4995 within the UK
011 44 115 900 4995 from the USA and Canada
0011 44 115 900 4995 from Australia
00 44 115 900 4995 from Europe and the rest of the world.

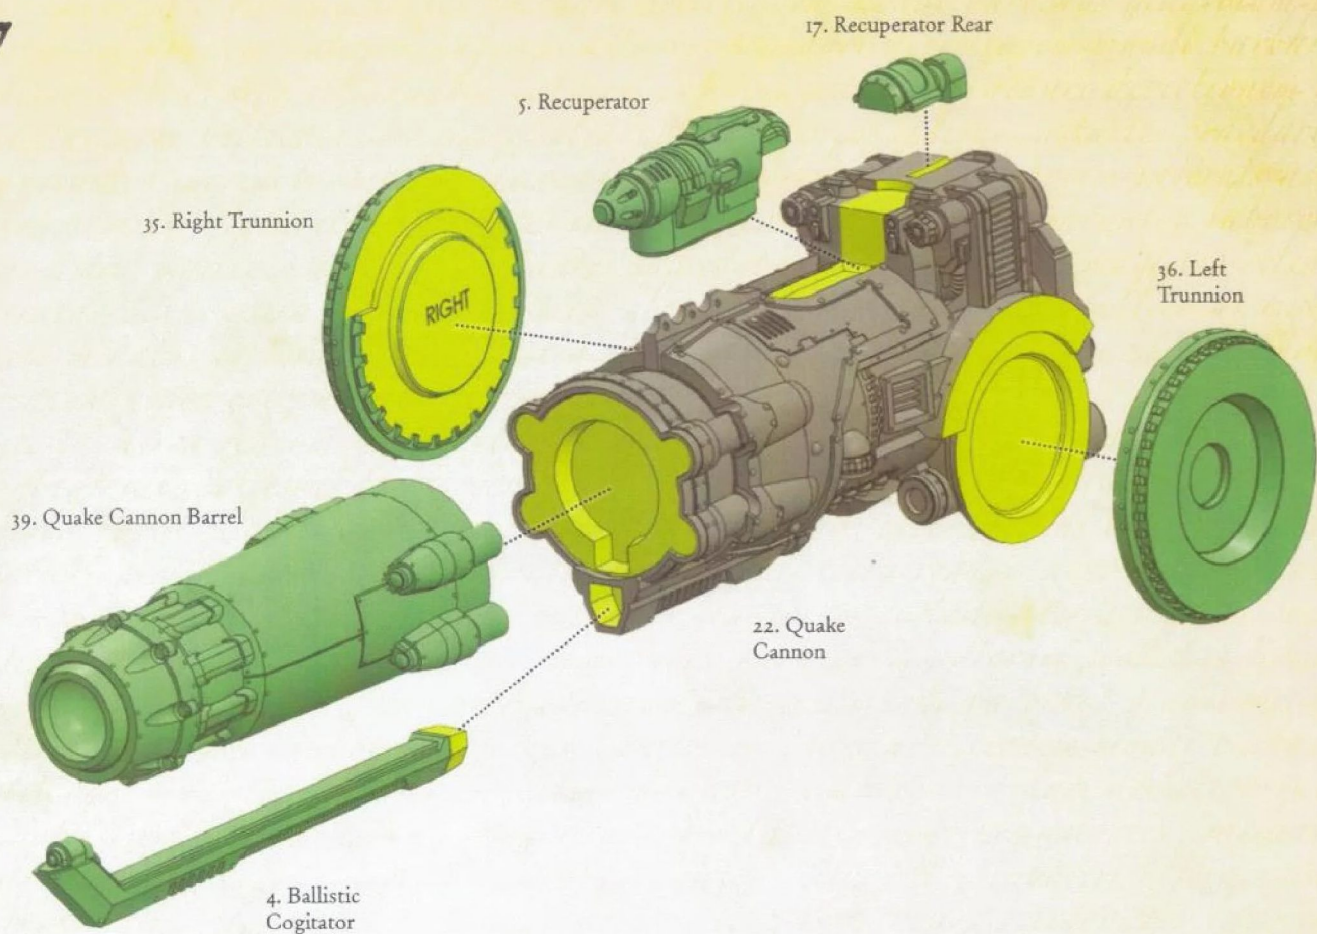

! Repeat stages 1 to 3 for 12. Left Magazine using 7. Left Magazine Motor, 14. Left Shell Ramp, 19. Left Magazine Mount and 16 Left Crane Arm.

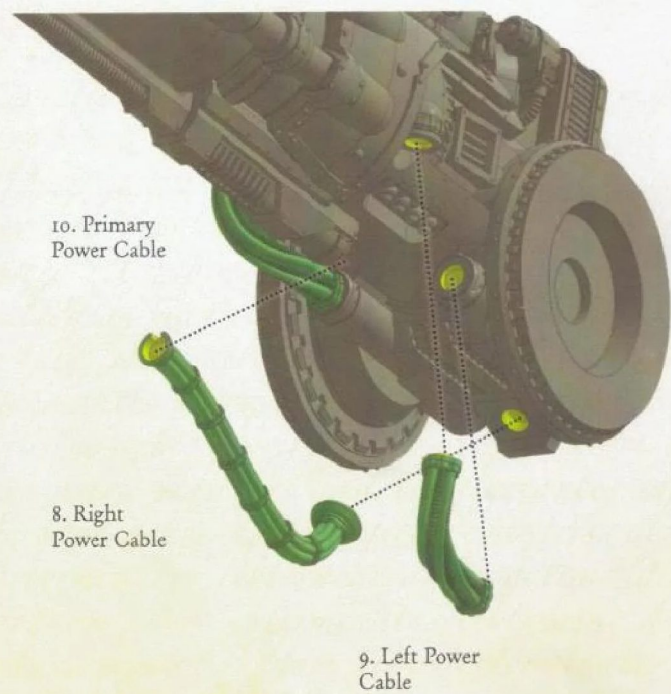

! You can leave a 31. Shell Tip and corresponding 30. Shell Fin out, as if the cannon had fired a shell.

Completed Quake Cannon Sub-assembly

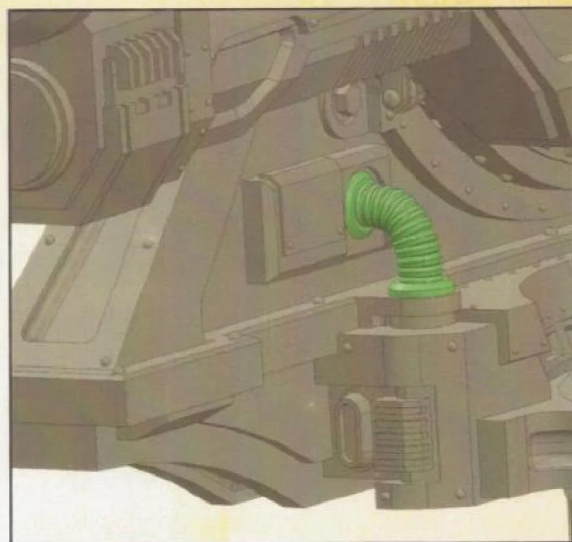

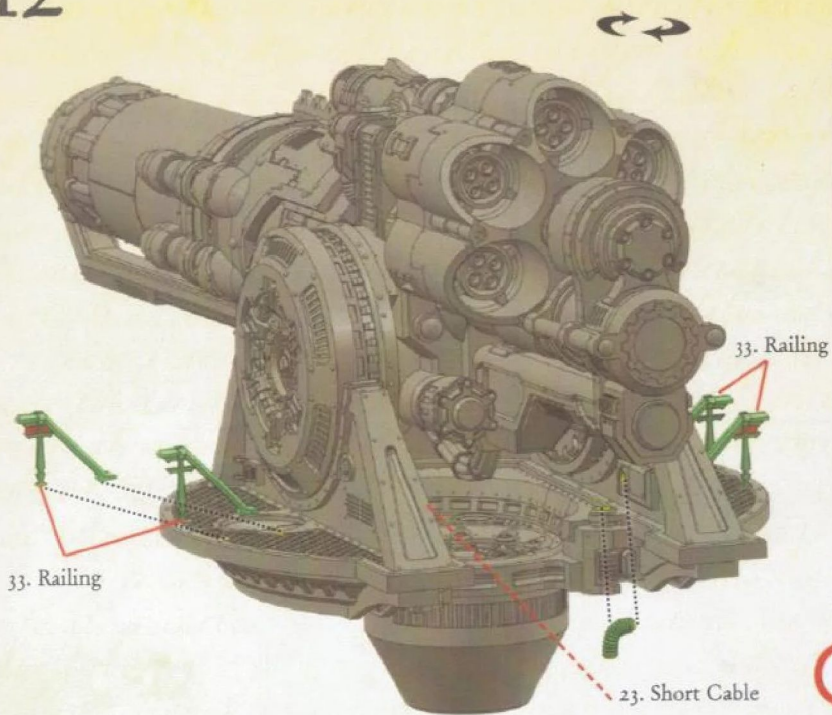

IO

II

Quake Cannon Assembly

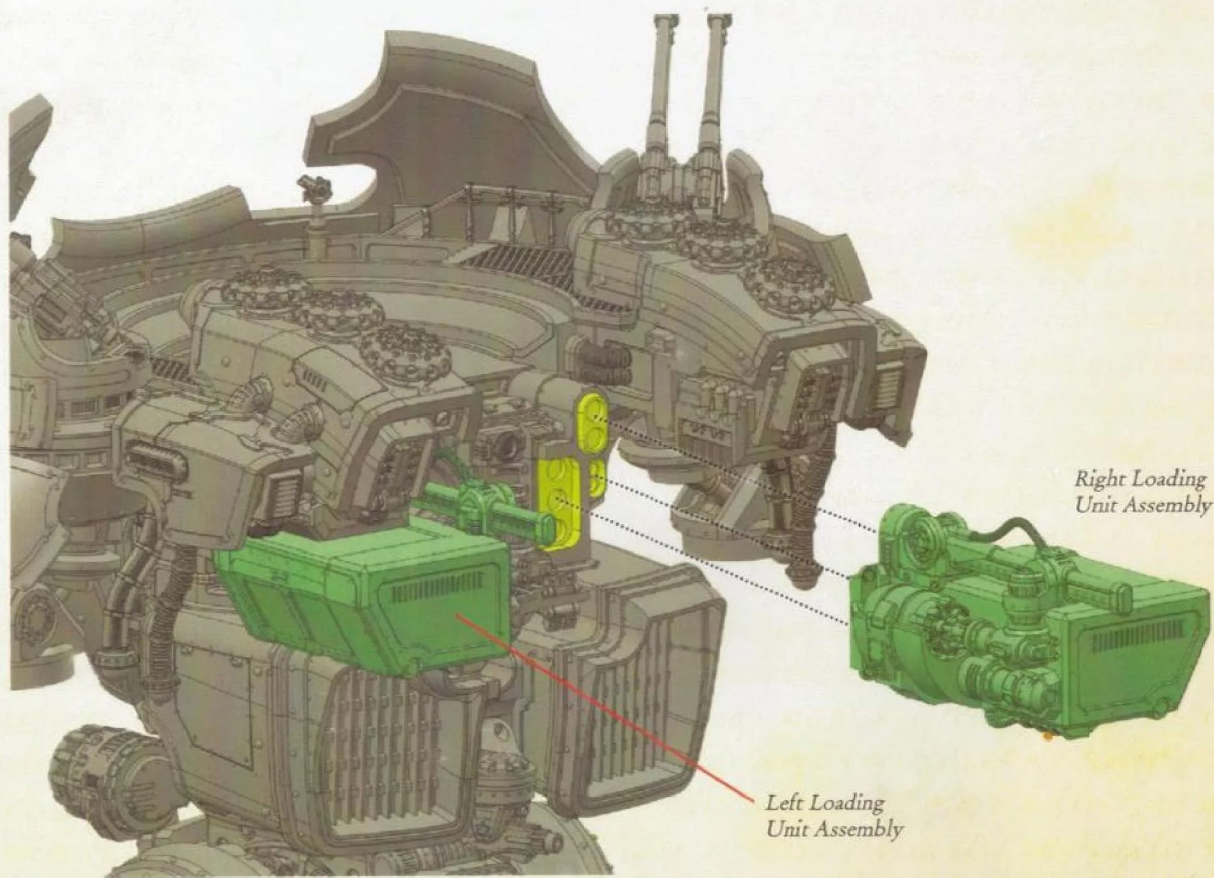

I2

Attach 23. Short Cable to both sides of the Quake Cannon Mount as shown above.

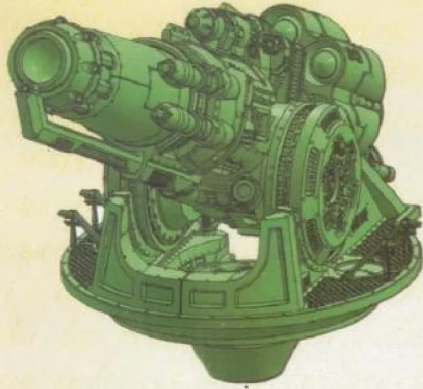

I3

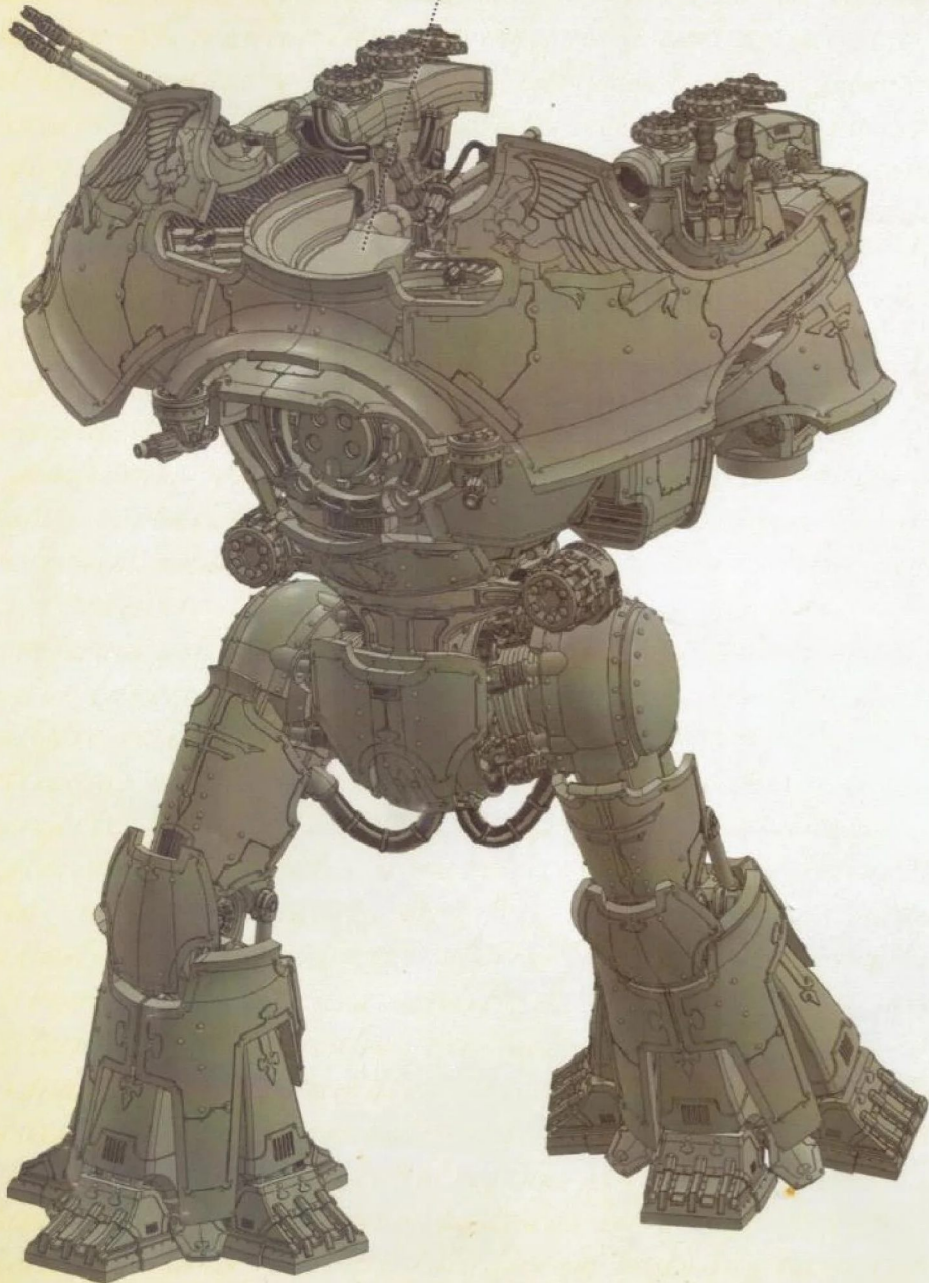

You can magnetise each Loading Unit instead of gluing them in place (use 6x2mm and 4x2mm magnets - not included) should you wish to change out the Primary Weapon on the Legio Titanicus Warbringer Nemesis Titan Body.

Locate the Quake Cannon Assembly into the recess on top of the Legio Titanicus Warbringer Nemesis Titan Body. The weight of the Quake Cannon should be enough to hold it in place without glue and allow it to pivot in place.
