THOUSAND SONS LEGION

SEKHMET TERMINATOR CABAL

The elite of the First Fellowship of the Thousand Sons Legion, the Sekhmet Terminator Cabal also serve as the personal bodyguard of Magnus the Red. Clad in Terminator armour, they fight with such unified precision and control that they appear to some less warriors of flesh and blood but more akin to automata, seemingly able to shun injuries by mere strength of will alone.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust mask or respirator when sanding or sawing resin parts.

Resin Components

Before assembly, check that none of the components are missing.

This set also includes two plastic Cataphractii Terminator Sprues and five 40mm round bases.

Preparing the Model for Assembly

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims.

For a more detailed guide to working with resin models, go to the Downloads section of the Forge World website.

This kit contains all the pieces required to construct a unit of five Sekhmet Terminator Cabal. To glue the resin pieces together, use Citadel Super Glue.

NOTE: We have cast this kit using advanced techniques and the best quality resin, but due to the nature of the casting process, your model may contain small air bubbles. These can be filled with model filler or super glue. Any slight warpage of thin parts can easily be corrected by immersing the part in hot tap water for about 1 minute, then carefully bending it back into shape.

If you need to contact the Forge World Customer Service team regarding this model, you can get in touch via email - forgeworld@gwplc.com - or call:

0115 900 4995 within the UK

011 44 115 900 4995 from the USA and Canada

0011 44 115 900 4995 from Australia

00 44 115 900 4995 from Europe and the rest of the world.

Construction Example

! The construction example below uses the following parts from the included plastic sprues.
