9. Right Arm
10. Body
11. Left Leg
12. Left Arm
13. Left Pauldron

 Part For Assembly

 Assembly Option

 Glue Contact Area

 Shim For Removal

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any *model release* agent that may still be on the surface of the parts. Then, remove any *excess resin* such as mould lines, casting gates, vents and shims. For a more detailed guide to working with resin models, go to the Downloads section of the *Warhammer Community* website. To glue the resin pieces together, use super glue.
