WHITE SCARS LEGION

GOLDEN KESHIG JETBIKE CHAMPION

Among the most prestigious of the White Scars' main combat units are their heavy assault jetbike squads – often collectively referred to as the 'Golden Keshig'. These superlatively-skilled riders act as linebreakers and assault units par excellence, often serving where other Legions would prefer to deploy heavy armour or massed Terminator units.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust mask or respirator when sanding or sawing resin parts.

13. Champion Torso
14. Shield
15. Pannier Case
16. Thunder Hammer
17. Slung Lance
18. Right Arm

Preparing a Model for Assembly

Before assembling a model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims.

For a more detailed guide to working with resin models, go to the Downloads section of the Forge World website.

This kit contains all of the pieces required to construct a White Scars Legion Golden Keshig Jetbike Champion. To glue the resin pieces together, use Citadel Super Glue.

NOTE: We have cast this kit using advanced techniques and the best quality resin, but due to the nature of the casting process, your model may contain small air bubbles. These can be filled with model filler or super glue. Any slight warpage of thin parts can easily be corrected by immersing the part in hot tap water for about 1 minute, then carefully bending it back into shape.

If you need to contact the Forge World Customer Service team regarding this model, you can get in touch via email – forgeworld@gwplc.com – or call:
0115 900 4995 within the UK
011 44 115 900 4995 from the USA and Canada
