# WHITE SCARS LEGION

## KYZAGAN ASSAULT SPEEDER

*The White Scars Kyzagan Assault Speeder is a swift-moving and agile weapons platform, providing brutal and unremitting firepower to support the rapid advance of the Legion's bikes and jetbikes. Supplying a mount for a Kheres assault cannon and a pair of Reaper autocannon, the Kyzagan is formidably armed for its size and is eminently capable of tearing through light armour and infantry as it speeds across the battlefield.*
